

“Creativity is intelligence having fun.”  
–Albert Einstein

At WorkSocial, your creativity is our main concern. We’ve designed workspaces that will spark your creativity and engage your team in new, exciting ways.

- Connect with your team and brainstorm in a conference room with a white board.
- Hunker down in a private office to work through a barrier or complete a task that requires delicate focus.

From our offices and open areas to our conference rooms, you’ll find the right environment for what you need. You’ll have access to collaboration when you want it, and a quiet space for introspective work when necessary.

## But you can’t work all the time.

Take advantage of a break in your day to recharge with a lunch and learn or a yoga class.

These periods of rest and connection are essential for helping keep your creative energy high – and helping you move past a creative low point.

## Need more help re-energizing?

Try one of our leadership trainings to help you regain your mojo. We’ve got free and discounted courses on leadership, team management, business strategy, and more.

Sometimes a session spent focused on broader business issues is just what you need to break through a creative barrier and grow your business to the next level.

Click here or call 201-293-7475 to schedule a tour of our work place and conference spaces.
